

## Beaverswood®

### Graphic Floor Signs

A range of eye-catching, highly visible **floor signs** which highlight warnings or special requirements. Printed on the underside of a tough clear plastic film and laminated with an aggressive adhesive means that these signs can be used in any busy industrial environment. Although originally designed for use on the floor, they can also be used on walls or other surfaces provided that they are dry, clean, flat and sealed.

## Features and Benefits

- Cost-effective and highly visible floor signs.
- Instantly highlight warnings or special requirements.
- Strong self-adhesive for use on clean, flat, dry, sealed surfaces.
- Large 430mm diameter – easily visible from a distance.
- Tested to R10 slip-resistance to improve workplace safety.
- A range of text and symbol designs to choose from - we can also supply bespoke designs, please enquire for more details.
- Also available as half-circle graphic floor signs or projected floor signs.

Material	0.3mm PVC rigid film, plus DST
Dimensions	430 mm diameter
Slip-resistance	Tested to R10 standard
Adhesive	Solvent acrylic (0.082mm)
Double sided tape (DST)	0.095mm
Initial tack	12 cm
Peel adhesion	1.3 kg/25.4mm <sup>2</sup>
Holding power	Over 1 hr/25.4mm <sup>2</sup>
Resistance to water	10 months
Resistance to chemicals	8 months
Resistance to motor oil	Excellent
Temperature range	-30° C ~ +70° C
Slip assessment dry pendulum test	66 median low slip risk
