

Beaverswood®

Magnetic Ticket Holders
25mm - 125mm High

Tough, 0.70mm thickness transparent PVC profile in a choice of 5 heights supplied with flexible magnetic strip bonded to the profile. Precut sizes from stock, special sizes up to 3m on request.

Can this product be used in a chilled environment? Yes, this product is ideal for use in chilled environments. However, we always recommend applying at ambient temperature first and then lowering the temperature. This is to reduce the possibility of ice or moisture getting between the magnetic backing and the steel surface.

Features and Benefits

- Ideal for identifying permanent locations on steel shelving and racking.
- Suitable for use in cold stores and chillers.
- Easy to load and update information with a pull forward front.
- Clear UV ray resistant front allows barcodes to be scanned.
- Choose from pre-cut stock sizes or can be supplied in custom lengths.
- Supplied with white card insert.
- Protects inserts from damage.
- Highly durable, withstanding daily use in industrial environments.

Material Specification

PVC Profile

Transparent 0.7mm profile extrusion – UV ray resistant – general purpose.

Magnetic Strip

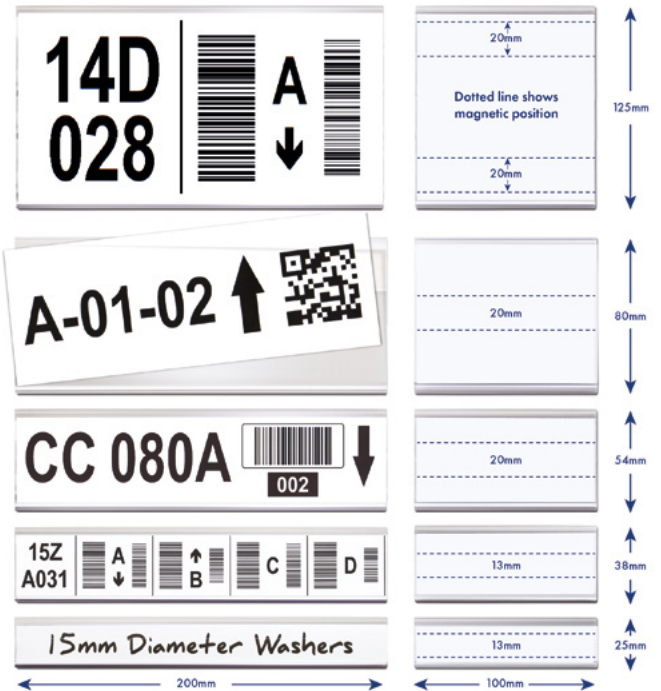

Magnetic strontium based extrusion.

Adhesive Strip

Temperature resistance: -30°C to 175°C

25mm / 38mm profiles supplied with a polyester based tape with acrylic adhesive: 54mm / 80mm profiles supplied with a polyethelene foam tape. The extrusion is supplied in lengths of 3M.

It can also be supplied cut to length. Other product specification sheet available for extra large ticket holder.

Magnetic Extrusion Thickness	1.5mm
Polarity 12.7mm size	Mag A
Polarity 25.4mm size	Mag B
Temperature Resistance	-30°C to 55°C
Magnetic Loss Occurs	Above 50°C
Magnetic Pull 12.7mm size	90 gm/cm length max
Magnetic Pull 25.4mm size	160 gm/cm length max
